

STATE OF SCIENCE SUMMIT: GENITOURINARY CANCERS TUESDAY, MARCH 7, 2017 • 5:30 PM – 9:00 PM

LOCATION:

TO BE ANNOUNCED SHORTLY!

TOPICS OF DISCUSSION:

- Early Prostate Cancer
 - Active surveillance, early diagnosis
 - Management of early prostate cancer
- Locally Advanced Prostate Cancer
 - Surgical management
 - Radiation therapy
- Kidney Cancer: Sequencing Strategies
 - Triggers, options for upfront therapy
 - Relapsed/refractory mRCC; integrating newly approved agents
- The Promise of Immunotherapy and Targeted Therapy for Bladder Cancer
- Treatment of Metastatic Castration-Resistant Prostate Cancer
 - Patient selection for AR-targeted therapies
 - Sequencing therapies
 - AR-resistance
- Bone-Targeting: Zoledronic Acid, Denosumab and Radium-223
 - Symptomatic patients
 - Asymptomatic patients
- Case-Based Panel Discussions

CHAIR:

Eric Jonasch, MD

Speakers:

Brian Chapin, MD
Seungtaek Choi, MD
Paul Corn, MD, PhD
Arlene Siefker-Radke, MD
