

# SCIENTIFIC WORKSHOPS & INTERCHANGES

---

The Evolving Role of Immunotherapy in Metastatic NSCLC  
An OncLive® Scientific Workshop & Interchange

---

## Objectives

- Discuss how new data and approvals have impacted the overall treatment landscape for metastatic NSCLC
- Obtain feedback on recently approved immunotherapy regimens and evaluate potential opportunities for these new regimens and treatment approaches
- Gain insight on how first-line agent selection will factor into your decision for second and subsequent lines of therapy
